**THE NATIONAL FEDERATION OF THE BLIND KNOWS THAT BLINDNESS IS NOT THE CHARACTERISTIC THAT DEFINES YOU OR YOUR FUTURE. EVERY DAY WE RAISE THE EXPECTATIONS OF BLIND PEOPLE, BECAUSE LOW EXPECTATIONS CREATE OBSTACLES BETWEEN BLIND PEOPLE AND OUR DREAMS. YOU CAN LIVE THE LIFE YOU WANT; BLINDNESS IS NOT WHAT HOLDS YOU BACK. THE NATIONAL FEDERATION OF THE BLIND IS NOT AN ORGANIZATION SPEAKING FOR THE BLIND--IT IS THE BLIND SPEAKING FOR OURSELVES.**

Each issue is recorded on a thumb drive (also called a memory stick or USB flash drive). You can read this audio edition using a computer or a National Library Service digital player. The NLS machine has two slots--the familiar book-cartridge slot just above the retractable carrying handle and a second slot located on the right side near the headphone jack. This smaller slot is used to play thumb drives. Remove the protective rubber pad covering this slot and insert the thumb drive. It will insert only in one position. If you encounter resistance, flip the drive over and try again. (Note: If the cartridge slot is not empty when you insert the thumb drive, the digital player will ignore the thumb drive.) Once the thumb drive is inserted, the player buttons will function as usual for reading digital materials. If you remove the thumb drive to use the player for cartridges, when you insert it again, reading should resume at the point you stopped.

You can transfer the recording of each issue from the thumb drive to your computer or preserve it on the thumb drive. However, because thumb drives can be used hundreds of times, we would appreciate their return in order to stretch our funding. Please use the return envelope enclosed with the drive when you return the device.
